Rahul Chaurasia

Full Stack Developer | Node.js | Laravel

rahulroot7@gmail.com | +91 7905256440 | linkedin.com/in/rahul-chaurasia-80371a194 | github.com/rahulroot7

Professional Summary

Full Stack Developer with 4+ years of experience designing, developing, and deploying scalable web applications using Node.js, React.js, Laravel (PHP), and JavaScript. Experienced in building responsive user interfaces, RESTful APIs, authentication systems (JWT/OAuth2), microservices, and real-time applications. Proficient in MySQL, PostgreSQL, MongoDB, Redis, Docker, AWS S3, and CI/CD pipelines. Strong background in API integration, database optimization, performance tuning, and delivering secure, high-quality solutions for enterprise and government applications.

Technical Skills

Languages	:	JavaScript, TypeScript, PHP 8, SQL
Backend	:	Node.js, Express.js, Fastify, Laravel, REST APIs, API Integration, JWT Authentication, OAuth2, Socket.IO, WebSockets
Architecture	:	MVC Architecture, Microservices, Asynchronous Processing, Queue Jobs, Cron Jobs
Databases	:	MySQL, PostgreSQL, MongoDB, Redis, Database Design, Query Optimization, Database Indexing, Schema Design, Transactions
Cloud & DevOps	:	Docker, AWS S3, Git, GitHub, GitLab, CI/CD Pipelines, Linux, Nginx, PM2, Apache
Messaging & Tools	:	Kafka, RabbitMQ, Swagger/OpenAPI, Postman, Composer
AI & GenAI	:	OpenAI, Codex, Generative AI, Prompt Engineering
Frontend	:	React.js, HTML5, CSS3, Bootstrap

Experience

ECHT TECH Consultancy Pvt. Ltd. Sep 2023 – Present
Software Developer (Full Stack Developer)

- Designed, developed, and maintained scalable web applications using **Node.js**, **React.js**, **Express.js**, **Laravel**, and **PHP**, delivering secure and high-performance solutions for enterprise and government clients.
- Developed responsive and reusable user interfaces using **React.js**, integrated frontend with **RESTful APIs**, and implemented authentication using **JWT** and role-based access control.
- Built and maintained scalable backend services, REST APIs, third-party API integrations, and business workflows following **MVC Architecture**, Repository Pattern, and clean coding best practices.
- Optimized application performance using **Redis**, database indexing, query optimization, and efficient schema design, improving API response times by **30%** and reducing database query execution time by **40%**.
- Containerized applications using **Docker** and automated deployments with **GitHub Actions CI/CD**, reducing deployment time by **50%** while improving release reliability.
- Collaborated with UI/UX designers, QA engineers, and cross-functional Agile teams to deliver end-to-end features, resolve production issues, and enhance application scalability and user experience.

Mariox Software Pvt. Ltd. Apr 2023 – Sep 2023
Software Developer

- Developed and maintained full-stack web application features using **Node.js**, **React.js**, **Express.js**, and **MongoDB**, delivering scalable and responsive user experiences.
- Engineered a **real-time chat application** using **Node.js**, **Socket.IO**, and WebSockets, supporting **500+ concurrent users** and **10K+ daily messages** with sub-100ms latency.
- Designed asynchronous messaging workflows using **RabbitMQ**, improving system scalability, fault tolerance, and overall throughput.
- Built and optimized **NumberDekho**, a location-based vendor marketplace, implementing geo-radius search and RESTful APIs to onboard **1,000+ vendors**.
- Collaborated with cross-functional teams using Agile methodologies, integrated third-party APIs, resolved production issues, and delivered high-quality software releases.

XEAM Venture Pvt. Ltd. Feb 2022 – Apr 2023
Software Developer

- Developed and maintained an **HRMS ERP system** using **Laravel**, **PHP**, **MySQL**, **HTML5**, **CSS3**, **Bootstrap**, and **JavaScript**, automating payroll, attendance, leave, and employee management workflows.
- Built responsive and user-friendly interfaces using **HTML5**, **CSS3**, **Bootstrap**, and JavaScript, improving usability across desktop and mobile devices.
- Developed secure **RESTful APIs**, implemented **JWT-based authentication**, and role-based access control (RBAC) for HR lifecycle management and employee self-service modules.
- Optimized **MySQL** database queries, indexing, and schema design, reducing payroll processing time by **35%** and improving overall application performance.
- Collaborated with business analysts and QA teams to implement new features, fix production issues, and deliver software enhancements using Agile development practices.

Key Projects

VAK – Real-Time Chat Application
React.js | *Node.js* | *Express.js* | *Socket.IO* | *MongoDB* | *Firebase Cloud Messaging*

- Developed a full-stack real-time chat application using **React.js**, **Node.js**, **Express.js**, and **Socket.IO** with one-to-one/group messaging, online status, read receipts, and file sharing.
- Integrated **Firebase Cloud Messaging (FCM)** for push notifications and designed scalable **MongoDB** schemas supporting **500+ concurrent users** with low-latency communication.

NumberDekho – Local Services Marketplace
React.js | *Node.js* | *Laravel* | *MySQL* | *Elasticsearch* | *REST APIs*

- Built a location-based marketplace with responsive user interfaces using **React.js** and scalable backend services using **Node.js**, **Laravel**, and **RESTful APIs**.
- Implemented geo-radius search, vendor onboarding, subscription management, payment workflows, and search optimization for high-volume traffic.

Government Digital Platforms (UCC Uttarakhand, NIHFW, PM SHRI, UDISE+, HRMS)
React.js | *Node.js* | *Laravel* | *PostgreSQL* | *MySQL* | *REST APIs*

- Developed and maintained secure full-stack web applications using **React.js**, **Node.js**, and **Laravel** for enterprise and government platforms.
- Built responsive dashboards, developed secure **RESTful APIs**, optimized **PostgreSQL** and **MySQL** databases, and implemented authentication and role-based access control for high-traffic applications.

Education

Chandigarh University 2020 – 2022
Master of Computer Applications (MCA) *Punjab India*

SRMU, Lucknow 2017 – 2020
Bachelor of Science in Information Technology *Lucknow India*
